

FOOD LOCKER

THE

AUTOMAT

Smart Food Locker

PC management website:

<http://buffet.guangeiot.com/AWTMbqYazL.php>

*Please ask your supplier to provide PC management account and password after you purchase the locker.*

*Before you use the locker, you have to get your own account and password, then you can manage your locker!*

Tips:

1. Link your locker with wifi network or 4G network.
2. Login your own PC management account by your computer.
3. Set up product categories
4. Add products

# HOW TO LINK WIFI

# HOW TO LINK WIFI

The login form features a decorative header with a blue background, a red sun, dark mountains, a grey user icon, and blue trees. Below the header are three input fields: 'Account' for the username, 'Password' for the password, and 'Verification code' for a CAPTCHA. A checkbox for '保持会话' (Keep session) is located below the verification code field. At the bottom, a blue button labeled '登录' (Login) is highlighted with a red circle.

	用户名	Account
	密码	Password
	验证码	Verification code

# SWITCH LANGUAGE

Switch language

The screenshot shows a dashboard for a smart vending machine system. The top navigation bar includes '智能售餐柜', '控制台', and '商品分类'. On the right, there are links for '主页', '清除缓存', a language switch icon (a globe), 'Admin', and a settings gear. A yellow arrow points to the language switch icon with the text 'Switch language'. A red circle highlights the language switch icon, and a red arrow points from it to a magnified circular inset on the right. The main dashboard area features several key metrics: '总设备数' (15), '在线设备' (2), '总箱门数' (265), and '总管理员数' (3). A line chart shows '开箱次数' (unboxing count) over time, with data points for 02-29, 2024-03-01, 2024-03-02, 2024-03-03, 2024-03-04, 2024-03-05, and 2024-03-06. To the right of the chart are summary cards for '今日开箱次数' (115), '昨日开箱次数' (0), '七日开箱次数' (115), and '七日异常次数' (0). The bottom section contains four summary cards: '运行中的插件' (0), '数据库统计' (30 data tables, 1MB space), '附件统计' (28 files, 9MB size), and '图片统计' (28 images, 9MB size). The left sidebar contains a search bar and a menu with items like '设备管理', '常规管理', '权限管理', '商品管理', '商品分类', and '商品列表'.

# A D D C A T E G R O R Y

Second step: Add category

The screenshot displays the 'Product category' management interface. The main table lists existing categories with their respective icons and sort values. A modal window is open for adding a new category, showing a list of icons and their corresponding titles. A text box explains the sorting logic: 'The higher the value, the closer the ranking'.

Id	Title	Icon	Icon Selected	Sort	Status
4	Snacks			4	Normal
3	Noodles			3	Normal
2	Humberger			6	Normal
1	Drink			5	Normal

Showing 1 to 4 of 4 rows

The higher the value, the closer the ranking

First step: Choose product category

# A D D P R O D U C T

The screenshot shows a management interface for a smart vending machine. The top navigation bar includes 'Dashboard', 'Product category', and 'Product list'. A sidebar on the left shows the user 'Admin' is online. The main area displays a table of products with columns for Id, Type, Product Code, Product title, Image, Price, Advent time, Expire time, Storage condition, Status, and Create time. An 'Add' modal is open, allowing for the creation of a new product. The modal includes fields for Type (set to 'Drink'), Product Code (with a note 'Letter and number'), Product title, Image (with 'Upload' and 'Choose' buttons), Storage condition (radio buttons for 'Keep warm', 'Ordinary temperature', 'Keep fresh', 'Cold storage', and 'Custom Range'), Price, Advent time (with a note 'If you enter 60 minutes, then after this time, system will think this food is going to be expired'), Expire time (with a note 'If you enter 80 minutes, then after this time, system will think this food had been expired'), and Status (radio buttons for 'Normal' and 'Halt'). A yellow arrow points to the 'OK' button in the modal. Another yellow arrow points to the 'Expired Food' section at the bottom right, which shows a legend for 'empty', 'Normalcy', 'Expired', and 'Locked', and a list of four items with their respective status indicators. A text box at the bottom right states 'Your staff can check expried foods on the screen'. A keyboard overlay is visible on the left side of the screen, with a yellow arrow pointing to it and the text 'Keyboard on the screen'.
